

## Shane Cory

### Senior Project Manager

Shane works with Architects and Engineers through the design drawing phases to create full sets of documents in Revit for bidding of a project and assists with ongoing coordination for the project through construction until its successful completion. Since joining the Rippe team in 2014, Cory has worked on a variety of projects in healthcare, K-12 schools and other segments. He really enjoys the drawing and detail in the design aspects of his work. When Shane is not at work, you'll probably find him practicing his art, typically acrylic or charcoal, or perhaps in the kitchen perfecting a recipe.

#### EDUCATION

Bachelor of Science -  
Architecture with an Art  
Minor - University of  
Minnesota, Minneapolis,  
Minnesota

#### SELECTED PROJECT EXPERIENCE
