

## Zach Swanson

### Project Coordinator

Zach works with Architects and Engineers throughout the design drawing phases to create full sets of documents in Revit for bidding of a project and assists with ongoing coordination for the project through construction until its successful completion. Since joining the Rippe team in 2017, Swanson has utilized the five years of knowledge he acquired as a Design Consultant in the Transportation Industry; he has quickly translated his work with Light Rail, Train, Bus, and other Public Works facilities into the foodservice world.
