Computer-Aided Drafting
Western Dakota Tech
Rapid City, SD

As a Senior Project Manager with Rippe Associates, Mark has led foodservice design projects across a multitude of industries: from small healthcare facilities to large hospitals in major healthcare systems, corporate headquarters, colleges and universities in the education market segment. He collaborates with architects, engineers, code officials, and construction contractors to ensure every step of the process, from beginning to project end, is completed successfully, achieving the goals of his clients.
