

RIVAL HOUSE- GRAND CASINO HINCKLEY

Hinckley, Minnesota

Rival House at the Grand Casino Hinckley is a dynamic and fun-filled venue that brings the casino's high energy atmosphere into a stylish and whimsical entertainment space. The project was a part of an extensive master plan to revamp the casino floor and food & beverage venues, enhancing the overall customer experience.

The design inspiration for Rival House was drawn from its Saint Paul counterpart. The space boasts a sports bar theme with a sports score ticker running across the top of the bar. In addition to this, it also includes a small bowling alley with 4 lanes, foosball tables, other sports gaming options, and a stage for live music, making it a versatile and engaging environment for guests, promoting both entertainment and relaxation.

The space incorporates a main bar, server station, gaming area, and a dance floor accompanied by a stage. This layout was strategically designed to accommodate the venue's expansive size while ensuring efficient service delivery.
